

European Union RoHS Directive Compliance

Updated March 2010 – European Union (EU) Directive 2002/95/EC (Restriction of Hazardous Materials) place restrictions on certain hazardous substances in electrical and electronic equipment.

• Requirements for concentration limits for certain hazardous substances in electronic information products:

- Lead – 0.1%,
- Mercury – 0.1%
- Cadmium – 0.01%
- Hexavalent chromium – 0.1%
- Polybrominated biphenyl – 0.1%
- Polybrominated diphenyl ether (include deca-BDE) – 0.1%

Crydom products (Crydom and Crouzet brands) **do not contain** Cadmium, Mercury, Hexavalent Chromium, Poly-brominated Biphenyls (PBB), or Polybrominated Diphenyl Ethers (PBDE) as either intentionally added ingredients or as unintended impurities in concentrations exceeding EU regulatory limits.

The Crydom products (Crydom and Crouzet brands) listed below comply with the requirements of the Directive, including any relevant exemptions contained therein
