LVD Series
Panel Mounted Low Voltage Disconnect
DC Solid State Switches

Crydom LVD Series Solid State Switches were developed to offer the advantages of Crydom’s thermal management technology in a switch that monitors a system’s battery voltage and disconnects the battery from the system when it’s voltage falls below a preset low voltage value.

FEATURES
- Wide range of output current ratings and control set points
- MOSFET DC switching technology
- Industry standard package
- Ambient temperature compensated

MOUNTING INSTRUCTIONS
Please read all installation instructions before using your LVD Series switch. Choose one of the two mounting options and follow the instructions.

Mounting on Panel
- Locate the panel section on which the LVD switch will be mounted on
- Be sure to use thermal pad/grease between LVD switch and the panel
- Tab holes have a diameter of 0.125 in (3.2 mm). You will need two screws no longer than that to mount the LVD switch onto panel
- Align LVD switch tabs with panel surface and screw both top and bottom sides. Recommended torque is 20 in lb (2.2 Nm)

Control Set Points
- A: 18 Vdc max., Hysteresis 11.0-11.5 Vdc
- B: 18 Vdc max., Hysteresis 11.5-12.0 Vdc
- C: 18 Vdc max., Hysteresis 12.0-12.5 Vdc
- D: 36 Vdc max., Hysteresis 23.0-24.0 Vdc
- E: 36 Vdc max., Hysteresis 24.0-25.0 Vdc
- F: 36 Vdc max., Hysteresis 25.6-26.6 Vdc

Required for valid part number
For options only and not required for valid part number

Maximum Recommended Terminal Screw Torque [in/lbs] (Nm)
Input 8-10 (0.9-1.1) / Output 18-20 (2.0-2.2)

Input Terminal Wire Capacity
12 AWG (2.5 mm)

Output Terminal Wire Capacity
Select wire size depending on current

(B) Typical LVD Connection Wiring diagram does not feature electric isolation between Input (1, 2) and Output (3, 4) terminals

(A) When wired as above the maximum battery voltage is limited to 36 Vdc

**WARNING**
- RISK OF MATERIAL DAMAGE AND HOT ENCLOSURE
  - The product’s side panels may be hot, allow the product to cool before touching.
  - Follow proper mounting instructions including torque values.
  - Do not allow liquids or foreign objects to enter this product.
- Failure to follow these instructions can result in serious injury, or equipment damage.

**DANGER**
- HAZARD OF ELECTRIC SHOCK, EXPLOSION OR ARC FLASH
  - Turn off power supply before working on this equipment.
- Failure to follow these instructions will result in death or serious injury.

**DERATING CURVES**
